This section explains the judgements and estimates made in determining the fair values of the financial Instruments that are

(a) recognized and measured at fair value and

(b) measured at amortized cost and for which fair values ae disclosed inthe financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified

its financial instruments into the three levels preseribed under the accountng standard which areas below:

Level 1: This hierarchy includes financial instruments measured using quoted prices. This includes listed equity

instruments that have quoted price. The fair valve of all equity instruments which are traded in te stock exchanges is

valued using th closing price as at the reporting year.

Level 2: The fair value of finascal instruments that are not traded in an active market is determined using valuation

techniques which maximize the use of observable market data and rly s litle as possible on entty-specifi estimates

If all significant inputs required to fair value an instrument are observable, the instrament i included in level 2

Level 3: IFone or more ofthe significant inputs is not based on observable market data, the instrument is included

level 3.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to valve financial instruments include:

a) the fair values ofthe FVTOCT investnents are derived from quoted market prices in ative markets

b) the fair values ofthe interest-bearing borrowings and loans are determined by using discounted cash flow method sing discouat rate that reflects the issuer's borrowing rate as at the end of the reporting year. The own nonperformance risk was assessed to be insianificant

c) the fair vale of the remaining financial instruments is determined using discounted cash flow analysis using rates currently available for debt on similar terms, credit isk and remaining maturities,

46.2 The fair value of Forward Foreign Exchange contracts is determined using forward exchange rates at the Balance Sheet date.

46.3 All monetary foreign currency denominated assets and liabilities are translated using exchange rate at reporting date.
